  - LEADERSHIP SEMINAR
  - Success and Its Dimensions
  - Leadership Qualities Session
-

# Learning Skills for 21<sup>st</sup> Century Society

Learning Skills (The Four C's)  
Guest Speaker: Mrs. Sanjyot Joshi  
Partner, IndStrat International Consultants, LLP

Quote:

“The Fourth Industrial Revolution or the Digital Disruption, which includes developments like artificial intelligence, machine learning, nanotechnology, 3-D Printing, genetics, biotechnology, robotics, etc. will impact not only the business models, but also the future jobs over the next five years. It is expected that different skill sets would be needed to thrive in the changed environment. The 4 C's Critical thinking, Communication, Collaboration and Creativity will be the key skills that would prepare the students for the future complex and different work environment.”

# Information and Technological skills

## Literacy Skills (IMT)

Guest Speaker: Mrs. Vaishali Kasturi

*Program Manager, Head IMS Tools Delivery, Tech Mahindra*

### *Quote:*

*“Media literacy education for children and youth is intended to promote awareness of media influence and create an active stance towards both consuming and creating media. By teaching children to have a critical eye toward media, they learn how to interpret information and communicate more efficiently, which may impact their everyday lives.”*

# Leadership Skills in contemporary Society

## Life Skills (FLIPS)

**Guest Presenter: Mr. Hemant Bhangе**  
**Managing Director at Zamil Air-conditioners India Pvt Ltd**

“We need to see things from a different paradigm, what was good last time may not work this time. Benchmarks change every day, we need to shift focus from individual intelligence to team intelligence and focus on goals. Leadership is changing from authoritative to motivational, where the strategy is “involve and accomplish” .

The need of the hour is to identify leadership traits in every individual and aid in their development.

“What matters the most is the result; and if the process is right, result is ought to be right.”

# Seminar on Globalization; Threats and Opportunity

Mr. Vinay Diwaker General Manager Wipro

“Globalization is inevitable and irreversible. We can tap the gains of this process, While remaining realistic about its potential and its risks. Opportunities of globalization do not come without risks. Globalization must be allowed to pervade for the countries progress keeping the culture and heritage intake. Technologies have brought people and society closer. Globalization erodes identities and culture. Technology has fuelled the change due to social media tools such as Facebook, twitter, whatsapp, instagram etc.. This puts enormous responsibility on younger generation to retain their culture and ideas. It is important to use common sense rather than blindly follow global trend”

# Spicer Adventist University
